

WEB DEVELOPER

PROFILE :

BSC or MA in Computer Science/Engineering
1-5 years of experience

START DATE : As soon as Possible**LOCATION :** Sophia Antipolis (Nice area)

COMPANY INFORMATION

Air Cube is a B2B start-up company established in 2011 and based in Sophia Antipolis (Nice area, France). We deliver Business Intelligence solutions related to pricing, revenue management, distribution and eCommerce to airlines and other travel industry players.

Air Cube combines outstanding expertise in Business Intelligence & Data Mining together with a keen business understanding of pricing and travel distribution supported by 3 decades of combined experience in the airline and travel sector.

We process and enrich data and deliver cutting-edge visualization solutions to facilitate and accelerate decisions and help our customers to turn travel data into action.

JOB DESCRIPTION

Air Cube is seeking a Web Developer to manage its Website and Client Solution Portal

The role involves

- ✓ Designing, coding and modifying our Business Intelligence Web Portal
- ✓ Revamping & maintaining our company website
- ✓ Requirements Analysis, Software Development Fundamentals, Problem Solving

The selected candidate will need to be able to understand requirements, turn them into specs, deliver the corresponding developments and test them.

This position will be based in our head office in Sophia Antipolis (near Nice). No travel expected for this role.

PROFILE REQUIREMENTS

We are looking for ambitious, curious and highly motivated young talents who want to take an active role in the development of a start-up.

Air Cube has passed the inception stage and has signed several important customers, we are now moving into a growth phase - in the 2-3 coming years we expect to increase substantially our team and our business

Individuals in this role will be expected to:

- ✓ Master, have advanced notions of and/or proven experience in the following:
 - JavaScript, JQuery, PHP, HTML, HTML5, CSS, CSS3, Web User Interface Design (UI),
 - Security Principles, Object-Oriented Design, API's
- ✓ Be fully proficient in English (frequent written and oral interaction in English)
- ✓ Be comfortable working in a small team

Notions in UI/UX and/or in photoshop or other graphic editors will be a plus.

References / project portfolios also a plus
